## Education

MASc in ECE Toronto, Canada

UNIVERSITY OF TORONTO: EDWARD S. ROGERS SR. DEPARTMENT OF ECE · CURRENT CGPA: 4.0/4.0

2023 - present

Topics: Machine Learning, Neural Compression, Decentralized Learning.

Advisor: Prof. Ashish Khisti

**BASc in Computer Engineering** 

Porto Alegre Brazil

202

FEDERAL UNIVERSITY OF RIO GRANDE DO SUL (UFRGS) · LAST 2 YEARS GPA: 9.63/10

Thesis: Latent Space Representation and Manipulation of StyleGANs · Grade: 10/10 (A)

# **Publications** \_

#### Quality and Complexity Assessment of Learning-Based Image Compression Solutions

DOI.

10.1109/ICIP42928.2021.9506136

September, 2021

João Dick, Brunno Abreu, Mateus Grellert, Sergio Bampi

2021 IEEE International Conference on Image Processing (ICIP)

## Awards.

#### Vector Scholarship in AI Recipient 2023-24 · Vector Institute

The Vector Scholarship in Al supports recruiting exceptional students to Al-related master's programs in Ontario, valued at \$17,500.

BRASA PreGrad Mentee · Brazilian Student Association (BRASA)

The PreGrad Mentorship program selects students with an excellent academic background, supporting their application process to international graduate programs.

2nd Place · IEEE School on Digital Processing of Visual Signals and Applications (DPVSA)

2021 Placed second at the DPVSA Computer Vision Challenge on visual sports monitoring. Awarded a fast-track into a research internship at Pix Force.

**Best Undergraduate Poster Award** · IEEE Circuits and Systems Society Workshop (CASSW-RS) 2021

Best undergraduate poster for Quality and Complexity Assessment of Learning-Based Image Compression Solutions.

**Best Undergraduate Paper Award** · South School and Symposium on Microelectronics (EMicroSIM) 2021

Best undergraduate paper for Quality and Complexity Evaluation of Learning-Based Image Compression Techniques.

**DAC Young Student Fellow Best Research Presentations** · Design Automation Conference (DAC)

Ranked among the best research presentations out of 100 participants, receiving a \$100 cash prize.

**DAC Young Student Fellow** · 2020 Design Automation Conference (DAC)

The DAC Young Fellows program recruits promising early-stage student researchers, covering the conference's registration fees and up to \$1200 in travel and accommodation expenses.

2nd Place · Federal University of Rio Grande do Sul (UFRGS)

Ranked second among the 42 admitted students to the BASc on Computer Engineering program.

# **Experience**

VECTOR INSTITUTE

2016

# **Student Affiliate Researcher**

Toronto, Canado

June, 2023 - present

· Affiliated to the Vector Institute for Artificial Intelligence as a MASc researcher.

## **Machine Learning Engineer**

Coleção.moda

Florianopolis, Brazil October, 2022 - May, 2023

- · Implemented Latent Diffusion models for image generation.
- · Applied Data Science analysis concepts to consumer data.

#### **Undergraduate Research Assistant**

Porto Alegre, Brazii

GRADUATE PROGRAM OF COMPUTER SCIENCE · UFRGS · ADVISED BY PROF. MANUEL M. OLIVEIRA

January, 2022 - October, 2022

- · Performed research exploring latent space arithmetic in SyleGANs.
- · Applied Generative Modeling and GAN Inversion concepts using TensorFlow and PyTorch.

Research Intern

Porto Alegre, Braz

PIX FORCE: COMPUTER VISION AND IMAGE PROCESSING

January, 2022 - May, 2022

- · Developed computer vision applications for sports performance monitoring.
- · Improved object localization and segmentation algorithms based on concepts from scientific papers.

#### **Undergraduate Research Assistant**

Porto Alegre, Brazi

GRADUATE PROGRAM OF COMPUTER SCIENCE · UFRGS · ADVISED BY PROF. MANUEL M. OLIVEIRA

July, 2021 - January, 2022

- · Developed applications for the capturing step in low-light video enhancement pipelines for mobile devices.
- · Utilized the Camera2 API in Android Studio to implement low-light video recording functions.

#### **Undergraduate Research Assistant**

Porto Alegre, Brazi

Graduate Program of Microelectronics · UFRGS · Advised by Profs. Sergio Bampi and Mateus Grellert

July, 2018 - December, 2021

- · Performed research in diverse subjects such as IC design, video coding, and learning-based image compression.
- · Developed dedicated hardware arithmetic operators for computational intensive video coding operations.
- · Evaluated perceptual metrics' impact in the inter-frame motion estimation module of the HEVC video coding standard.
- · Assessed the rate-distortion-complexity tradeoff present in learning-based image compression models.
