Education

MASc in ECE
Toronto, Canada

University of Toronto: Edward S. Rogers Sr. Department of ECE · Vector Institute for AI
2023 - present

Topics: Information Theory, Neural Video Compression, LLM Watermarking.

Advisor: Ashish Khisti.

BASc in Computer Engineering
Porto Alegre, Brazil

Federal University of Rio Grande do Sul (UFRGS)
2022

Topics: IC Design, Neural Image Compression, Computer Vision.

Advisors: Sergio Bampi, Mateus Grellert, Manuel M. Oliveira.

Publications & Theses

Perception Loss Function Adaptive to Rate for Learned Video Compression

Sadaf Salehkalaibar, Buu Phan, **João Atz Dick**, Ashish J Khisti, Jun Chen, Wei Yu. *December, 2024.*

Machine Learning and Compression Workshop @ NeurIPS 2024.

Latents-Space Representation and Manipulation of StyleGANs

João Atz Dick. *October, 2022.*

Undergraduate Research Thesis.

Quality and Complexity Assessment of Learning-Based Image Compression Solutions

João Atz Dick, Brunno Abreu, Mateus Grellert, Sergio Bampi. *September, 2021.*

ICIP 2021

Awards

2023	**Vector Scholarship in AI Recipient 2023-24** · Vector Institute
	The Vector Scholarship in AI supports recruiting exceptional students to AI-related master's programs in Ontario, valued at $17,500.
2022	**BRASA PreGrad Mentee** · Brazilian Student Association (BRASA)
	The PreGrad Mentorship program selects students with an excellent academic background, supporting their application process to international graduate programs.
2021	**2nd Place** · IEEE School on Digital Processing of Visual Signals and Applications (DPVSA)
	Placed second at the DPVSA Computer Vision Challenge on visual sports monitoring. Awarded a fast-track into a research internship at Pix Force.
2021	**Best Undergraduate Poster Award** · IEEE Circuits and Systems Society Workshop (CASSW-RS)
	Best undergraduate poster for *Quality and Complexity Assessment of Learning-Based Image Compression Solutions*.
2021	**Best Undergraduate Paper Award** · South School and Symposium on Microelectronics (EMicroSIM)
	Best undergraduate paper for *Quality and Complexity Evaluation of Learning-Based Image Compression Techniques*.
2020	**DAC Young Student Fellow Best Research Presentations** · Design Automation Conference (DAC)
	Ranked among the best research presentations out of 100 participants, receiving a $100 cash prize.
2020	**DAC Young Student Fellow** · 2020 Design Automation Conference (DAC)
	The DAC Young Fellows program recruits promising early-stage student researchers, covering the conference's registration fees and up to $1200 in travel and accommodation expenses.
2016	**2nd Place** · Federal University of Rio Grande do Sul (UFRGS)
	Ranked second among the 42 admitted students to the BASc on Computer Engineering program.

Experience

Student Affiliate Researcher
Toronto, Canada

Vector Institute
June, 2023 - present.

· Affiliated to the Vector Institute for Artificial Intelligence as a MASc student researcher.

Machine Learning Engineer
Florianopolis, Brazil

Coleção.moda
October, 2022 - May, 2023.

- · Implemented Latent Diffusion models for text-to-image generation.
- · Applied Data Science analysis concepts to consumer data.

Undergraduate Research Assistant
Porto Alegre, Brazil

Graduate Program of Computer Science · UFRGS · Advised by Prof. Manuel M. Oliveira
January, 2022 - October, 2022.

- · Performed research exploring latent space arithmetic in SyleGANs.
- · Applied Generative Modeling and GAN Inversion concepts using TensorFlow and PyTorch.

Research Intern
Porto Alegre, Brazil

Pix Force: Computer Vision and Image Processing
January, 2022 - May, 2022.

- · Developed computer vision applications for sports performance monitoring.
- · Improved object localization and segmentation algorithms based on concepts from scientific papers.

Undergraduate Research Assistant
Porto Alegre, Brazil

Graduate Program of Computer Science · UFRGS · Advised by Prof. Manuel M. Oliveira
July, 2021 - January, 2022.

- · Developed applications for the capturing step in low-light video enhancement pipelines for mobile devices.
- · Utilized the Camera2 API in Android Studio to implement low-light video recording functions.

Undergraduate Research Assistant
Porto Alegre, Brazil

Graduate Program of Microelectronics · UFRGS · Advised by Profs. Sergio Bampi and Mateus Grellert
July, 2018 - December, 2021.

- · Performed research in diverse subjects such as IC design, video coding, and learning-based image compression.
- · Developed dedicated hardware arithmetic operators for computational intensive video coding operations.
- · Evaluated perceptual metrics' impact in the inter-frame motion estimation module of the HEVC video coding standard.
- · Assessed the rate-distortion-complexity tradeoff present in learning-based image compression models.
