Education

PhD in Electrical and Computer Engineering

New York City, USA

NEW YORK UNIVERSITY: TANDON SCHOOL OF ENGINEERING

2026-present

Topics: Representation Learning, Visual Perception.

Advisor: Jona Ballé.

MASc in Electrical and Computer Engineering

Toronto, Canada

UNIVERSITY OF TORONTO: EDWARD S. ROGERS SR. DEPARTMENT OF ECE · VECTOR INSTITUTE FOR AI

2023-2025

Topics: Information Theory & AI: Neural Compression, Generative Steganography.

Advisor: Ashish Khisti.

BASc in Computer Engineering

Porto Alegre, Brazil

FEDERAL UNIVERSITY OF RIO GRANDE DO SUL (UFRGS)

2016-2022

Topics: IC Design, Neural Image Compression, Computer Vision.

Advisors: Sergio Bampi, Mateus Grellert, Manuel M. Oliveira.

Publications

Arithmetic Sampling Embedding: Rate Optimal, Perfectly Secure, and Error-Free LLM Steganography

João Atz Dick, Ashish J Khisti.

TBA

Manuscript under preparation.

On Self-Adaptive Perception Loss Function for Sequential Lossy Compression

SADAF SALEHKALAIBAR, BUU PHAN, LIKUN CAI, João Atz Dick, Ashish J Khisti, Jun Chen, Wei Yu.

February, 2025

ArXiv.

Perception Loss Function Adaptive to Rate for Learned Video Compression

SADAF SALEHKALAIBAR, BUU PHAN, João Atz Dick, Ashish J Khisti, Jun Chen, Wei Yu.

December, 2024

Machine Learning and Compression Workshop @ NeurIPS 2024.

Quality and Complexity Assessment of Learning-Based Image Compression Solutions

João Atz Dick, Bruno Abreu, Mateus Grellert, Sergio Bampi.

September, 2021

ICIP 2021

Theses

Arithmetic Sampling Embedding: Rate-Optimal, Perfectly Secure, and Error-Free LLM Steganography

João Atz Dick.

2025

MASc Thesis.

Latents-Space Representation and Manipulation of StyleGANs

João Atz Dick.

2022

Undergraduate Thesis.

Experience

Student Affiliate Researcher

Toronto, Canada

VECTOR INSTITUTE

June, 2023 - December, 2025

· Affiliated to the Vector Institute for Artificial Intelligence as a MASc student researcher.

Machine Learning Engineer

Florianopolis, Brazil

COLEÇÃO.MODA

October, 2022 - May, 2023

· Implemented Latent Diffusion models for text-to-image generation.

· Applied Data Science analysis concepts to consumer data.

Undergraduate Research Assistant

GRADUATE PROGRAM OF COMPUTER SCIENCE · UFRGS · ADVISED BY PROF. MANUEL M. OLIVEIRA

Porto Alegre, Brazil
January, 2022 - October, 2022

- Performed research exploring latent space arithmetic in StyleGANs.
- Applied Generative Modeling and GAN Inversion concepts using TensorFlow and PyTorch.

Research Intern

PIX FORCE: COMPUTER VISION AND IMAGE PROCESSING

Porto Alegre, Brazil
January, 2022 - May, 2022

- Developed computer vision applications for sports performance monitoring.
- Improved object localization and segmentation algorithms based on concepts from scientific papers.

Undergraduate Research Assistant

GRADUATE PROGRAM OF COMPUTER SCIENCE · UFRGS · ADVISED BY PROF. MANUEL M. OLIVEIRA

Porto Alegre, Brazil
July, 2021 - January, 2022

- Developed applications for the capturing step in low-light video enhancement pipelines for mobile devices.
- Utilized the Camera2 API in Android Studio to implement low-light video recording functions.

Undergraduate Research Assistant

GRADUATE PROGRAM OF MICROELECTRONICS · UFRGS · ADVISED BY PROFS. SERGIO BAMPI AND MATEUS GRELLERT

Porto Alegre, Brazil
July, 2018 - December, 2021

- Performed research in diverse subjects such as IC design, video coding, and learning-based image compression.
- Developed dedicated hardware arithmetic operators for computational intensive video coding operations.
- Evaluated perceptual metrics' impact in the inter-frame motion estimation module of the HEVC video coding standard.
- Assessed the rate-distortion-complexity tradeoff present in learning-based image compression models.

Scholarships & Fellowships

SOE PhD Fellowship · NYU Tandon

2026 The School of Engineering (SOE) PhD Fellowship fully supports selected PhD students during their first year of studies at NYU Tandon, valued at US\$ 95,119.

Vector Scholarship in AI · Vector Institute

2023 The Vector Scholarship in AI supports recruiting exceptional students to AI-related master's programs in Ontario, valued at
2025 CA\$ 17,500.

Edward S. Rogers Sr. Graduate Scholarships · University of Toronto

2023 The Edward S. Rogers Sr. Graduate Scholarships supports the tuition and fees of Electrical and Computer Engineering
2025 research graduate students, valued at CA\$ 40,097.000.

BRASA PreGrad Mentee · Brazilian Student Association (BRASA)

2022 The PreGrad Mentorship program selects students with an excellent academic background, supporting their application process to international graduate programs.

DAC Young Student Fellow · 2020 Design Automation Conference (DAC)

2020 The DAC Young Fellows program recruits promising early-stage student researchers, covering the conference's registration fees and up to US\$ 1,200 in travel and accommodation expenses.

Awards

2nd Place · IEEE School on Digital Processing of Visual Signals and Applications (DPVSA)

2021 Placed second at the DPVSA Computer Vision Challenge on visual sports monitoring. Awarded a fast-track into a research internship at Pix Force.

Best Undergraduate Poster Award · IEEE Circuits and Systems Society Workshop (CASSW-RS)

2021 Best undergraduate poster for *Quality and Complexity Assessment of Learning-Based Image Compression Solutions*.

Best Undergraduate Paper Award · South School and Symposium on Microelectronics (EMicroSIM)

2021 Best undergraduate paper for *Quality and Complexity Evaluation of Learning-Based Image Compression Techniques*.

DAC Young Student Fellow Best Research Presentations · Design Automation Conference (DAC)

2020 Ranked among the best research presentations out of 100 participants, receiving a US\$100 cash prize.

2nd Place · Federal University of Rio Grande do Sul (UFRGS)

2016 Ranked second among the 42 admitted students to the BASc on Computer Engineering program.
